America's veterans have done everything asked of them in their mission to serve our country, but military service changes them forever. Aging veterans may have life-long chronic health issues that were born during military service decades ago. This program will explore the unique experiences and health concerns of veterans based on their era of service, discuss issues that can arise in end-of-life care of veterans and explain what resources are available to help. Lake County Veterans Assistance Commission will have an information table onsite.

### **"Warriors Until the End: Why Are Veterans Different?"**

Linda Rockwell, MPA, will discuss the influences, both physical and psychological, that impact our military and mold them into the veterans they become.

### **VA Medical Foster Homes**

John Zidek, Coordinator of the VA's Medical Foster Homes program at Capt. James A. Lovell Federal Health Care Center will review this safe, home-like option to provide long term care for veterans.

### **Lake County Honor Flight**

Stella Jones, board member, will explain how Honor Flight pays tribute to veterans and how veterans and volunteers can enroll.

Thank you to Northrop Grumman and Village of Gurnee Veterans Blue Ribbon Commission for their support of this program!
